BUYERS GUIDE

**Introducing fusion technology
Solutions for Success**

A leader in technology and innovation for nearly two decades, **VOICE Tech** presents **fusion technology**, an integrated suite of automated solutions for the pharmacy industry.

With over 60 interfaces to other systems within the pharmacy, **fusion technology** automates many processes to positively impact the pharmacy’s work environment and increase customer satisfaction – including the refill reminder, patient refill ordering and doctor authorization process. As a bonus, **fusion technology** can automatically notify patients when their prescription order is ready for pick-up or is still in the will-call bin a few days later.

Recognizing that every pharmacy is different, **fusion technology** solutions are available individually or in any combination to meet your specific needs and budget.

**Product Solutions
For the Pharmacy Industry**

ExpressCall-Rx™ provides integrated outbound calls to patients, including

compliance and persistence calls, will-call reminders, clinic announcements and “thank you for your business” messages. Call reports provide proof of success!

DirectLink-Rx™ automates the refill ordering process from any long-term care facility, allowing facility staff to place multiple prescription refills and reorders 24/7.

Tele-Fill® allows callers to use their telephone key pad to place prescription refill orders — anytime day or night.

Attendant-Rx™ provides customers and doctors with the convenience of an automated attendant answering system.

Quick-Link® gives pharmacy staff an easy way to handle refill requests. Using a touch screen, refill orders from walk-in, drive-thru or telephone customers can be securely submitted directly to the pharmacy system work queue.

Refill Assistant® allows customers to place a refill order on a self-service touch screen that can be placed anywhere in the pharmacy or at any remote location connected to the pharmacy’s network.

FusionFax-Rx™ automatically faxes an authorization form to the doctor’s office when a prescription has no refills remaining, has expired or it’s too soon for a refill.

WebFill-Rx™ enables customers to order refills online. If doctor authorization is needed, an authorization fax can be sent automatically. WebFill-Rx is available at no charge when you buy three or more fusion technology solution modules.

VOICE Tech develops and markets interactive products that automate many everyday business tasks. Companies are provided with a variety of solution-based products that allow them to run their businesses more efficiently, thus enabling them to focus more time on customer service.

Years of experience in all aspects of engineering, voice and telephony application expertise have led to the development of the most feature-rich, flexible, efficient and user friendly products for pharmacies across the board.

Providing Solutions That Positively Impact a Pharmacy’s
Work Environment and Increase Customer Satisfaction.

WELCOME TO THE 2009 PPSC'S BUYERS GUIDE

Based on the overwhelming success of last year's first edition, PPSC is pleased to provide our members with an even greater selection of top notch companies providing products and services that will benefit your pharmacy in this challenging business environment. As always, the goal of the Buyers Guide is to provide PPSC members a "one-stop" reference tool for displaying the various product and service vendors PPSC has carefully evaluated and selected to serve you. The vendors listed in the Buyers Guide were chosen because of the commitment, quality, reliability, reputation, and value they bring to your business. They offer a wide array of products, valuable services, innovative technologies, special discounts, attractive rebates, and other benefits that can improve profitability, increase customer traffic and enhance your productivity.

HOW TO USE IT

The Buyers Guide is organized alphabetically by product and service category. Included within each category is a broad range of product and service providers, listing vendor names, contact information and product or service description. For your convenience, we have included an "Information Request Form," a checklist that can be completed and faxed back to PPSC for additional information. The Buyers Guide also prominently displays advertisements from many of our vendors about their unique products and services.

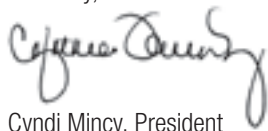

THANK YOU

Our gratitude goes to the companies and organizations that advertised in the Buyers Guide, whose support makes this important business resource possible. I hope you will turn to the PPSC Buyers Guide and select these vendors whenever you are shopping for a product or service to help your pharmacy business.

IDEAS AND COMMENTS

The idea for the Buyers Guide came from you, our members, and we appreciated the positive feedback we received on our first edition. So, please continue sending us your ideas on how we can make future guides even more useful to you and your pharmacy: customerservice@ppsconline.com.

Sincerely,

Cyndi Mincy, President

This Buyers Guide is divided into three sections:

1. INCREASE PROFITS | PAGE 2

These programs and services help you to simplify purchasing, reduce costs, identify new revenue sources and improve margins.

2. BUILD TRAFFIC | PAGE 24

These programs and services provide you the know-how, marketing expertise and turnkey solutions to build and maintain customer traffic.

3. WORK SMARTER | PAGE 31

These programs and services help you compete in today's marketplace by being more efficient and productive.

Access the resources to make your business successful.

What if you could increase the likelihood that your most profitable customers will return to your store?

.....

What if you could increase discretionary spending on higher margin items in your store?

.....

What if you could leverage the marketing power of a well-recognized nationwide brand?

If your patients with diabetes like the ACCU-CHEK® Advantage system, then they'll **LOVE** the ACCU-CHEK Aviva system

Compared to the ACCU-CHEK Advantage system, the ACCU-CHEK Aviva system has many advances:

It's easier—the easy-to-fill tip makes it easy to sample—97% of testers fill correctly on the first try.¹

It's less blood—85% smaller—requires only a tiny blood sample.

It's faster—6 times faster—quick, 5-second results.

It's least painful—system includes the ACCU-CHEK Multiclix lancing device, rated least painful.²

If your patients' ACCU-CHEK Comfort Curve test strips were covered, then ACCU-CHEK Aviva strips will be covered as well.³

Upgrade them for FREE to the ACCU-CHEK Aviva system for faster, easier testing and keep their costs low.³

To find out more, call the ACCU-CHEK Customer Care Service Center, 1-800-858-8072.

SPECTRUM CLEANROOM DESIGN SERVICES

We can customize a USP <797> compliant cleanroom perfect for your needs. We pride ourselves on providing personal attention to help you overcome your USP <797> challenges. Call us today!

- » All cleanrooms are USP <797> compliant and feature versatile framing systems by Simplex
- » Polycarbonate inserts provide stability and durability
- » This system can be customized to integrate into most pharmacy and lab spaces
- » Suitable for ISO Class 8 (Class 100,000) to ISO Class 4 (Class 10) cleanroom applications

 SPECTRUM
CLEANROOM DESIGN

Spectrum Pharmacy Products has teamed up with Simplex Isolation Systems to provide you with complete cleanroom design services. We offer completely free-standing cleanrooms or can incorporate existing walls and ceilings to make most spaces in your pharmacy a viable location for a cleanroom. Simplex's unique frame system was designed exclusively to meet USP <797> specifications. These cleanroom systems are versatile, easy to install, and are simple to maintain. Frames

are manufactured from anodized aluminum with shallow interior ledges for easy cleaning and maintenance. The insert wall material is 1/4" polycarbonate which is easier to clean and more durable than traditional acrylic inserts. Self-supporting ceiling grids accept 2' x 4' HEPA filters, cleanroom grade lights, and solid polypropylene tiles. Our design team can also guide you through many other compliancy issues such as floor selection, cleaning, and training.

Why Global Means Local

As a fully integrated, global pharmaceutical company, adapting to change is a constant for us – and a necessity. After all, we operate in more than 125 countries on six continents. We are market driven and customer sensitive, so we can meet the ever-changing demands of our customers with a wide range of quality pharmaceutical products.

Global success requires our flexibility, but always with a very local touch. We know that each person we serve is a member of a unique culture that is an integral part of our global community.

That's why we stay focused on our local responsibilities—first and foremost to patients, as well as to doctors and pharmacists throughout the world who trust and depend upon medicines made by Ranbaxy.

It's all about Being Global and Local

Apis Footwear Company Medicare Therapeutic Shoe Bill

Congress passed The Therapeutic Shoe Bill in 1993 to provide proper footwear and inserts for diabetic patients who qualify under Medicare part B benefits. The Therapeutic Shoe Program was designed to help prevent lower limb ulcers, amputation and other complications in people with diabetes. Qualified beneficiaries will get one pair of extra-depth shoes plus extra pairs of heat-moldable inserts and/ or shoe modifications in each calendar year under this bill.

Qualified beneficiaries will receive the therapeutic shoes, inserts and/or modifications covered by Medicare only if they met the following criteria:

1. The beneficiary has diabetes mellitus(ICD-9 codes) and at least one or more following conditions,
 - Previous amputation of foot or part of either foot, or
 - History of previous foot ulceration of either foot, or
 - History of pre-ulcerative calluses of either foot, or
 - Peripheral neuropathy with evidence of callus formation of either foot, or
 - Foot deformity of either foot, or
 - Poor circulation in either foot
2. The certifying physician (MD or DO) who is managing the beneficiaries systemic diabetes condition has certified that one or more of the above conditions are diagnosed and she or he is treating the beneficiary under a comprehensive plan of care for the diabetes and the beneficiary is in need of therapeutic shoes, inserts and/or modifications.

The reimbursement of the therapeutic shoe program includes the foot evaluation, fitting of the shoes and inserts, modifications and follow-up session.

PARTNER TO INCREASE PROFITS FOR INDEPENDENTS!

This month, you can **add \$6,287** profit to your pharmacy, utilizing the **ReFlora** program without changing anything you are currently doing.

Example:

1,260	Antibiotic prescriptions monthly (<i>Industry Average</i>)
630	Customers purchase ReFlora based on your recommendation
x \$9.98	Profit per bottle

= \$6,287 Net Profit per month!

To get you started, through our exclusive relationship with **PPSC**, **VÄXA** is pleased to offer a simple way to increase your bottom line profits immediately. By simply recommending **VÄXA ReFlora** to your customers receiving antibiotic prescriptions you will help your clients support their body's good bacteria **during and after antibiotic treatment**.

Why suggest yogurt or buttermilk when **ReFlora** is a better option? After all, you don't make any money selling dairy products.

ReFlora FREE Getting-Started Kit includes:

- 3 Full Size bottles of ReFlora
- Product Training
- Educational CDs
- Product brochures
- **PROFIT OF \$59.94**

Simply sell the 3 bottles and keep the money!

Diabetes tries to limit me. But with Bayer, simple wins.

Diabetes can get in the way of my creativity, make me feel boxed in. But with my Bayer meter I can monitor my sugar levels, so I feel free. The new CONTOUR® is the only meter that can be easily personalized to fit my needs. And the BREEZE®2 meter has an easy-to-use 10-test disc — no need to handle individual strips. **My name is Joe James. And being out of the box is my simple win.**
