

Are you **MAXIMIZING** your membership?

Boost your Benefits with our
Preferred Diabetes Care Program!

Dear PPSC Member,

Since 2010, PPSC has partnered with Owen Mumford to provide members with added-value through the Preferred Diabetes Care Program. This year, we are excited to announce we've expanded this popular program to include even more products!

What is the Preferred Diabetes Care Program?

As a PPSC member, you already receive great everyday savings of up to 80% on Owen Mumford's high-quality range of diabetes care products as compared to other national brands¹. The Preferred Diabetes Care Program is an auto-substitution program that automates these savings by substituting diabetes care products (including pen needles, lancets, and lancing devices) with Owen Mumford's premium quality products – **allowing your pharmacy to save up to 80% every day on diabetes care essentials¹!**

Only products that are truly equivalent in specifications, and offer cost savings to your pharmacy, are included in this program. And as your volume on these products increases, you also have an opportunity to increase your member rebates!

What if a Patient doesn't want to be substituted?

No problem! The Preferred Diabetes Care Program is easy to enroll in, easy to cancel² – and offers flexibility for patients who are particular about their products. To bypass a substitution, simply select 'do not substitute' at the time of order.

How do I sign up?

Signing up is easy. Simply complete the enrollment form enclosed with this letter and FAX (770-977-2866) or EMAIL (programs@owenmumfordinc.com) to Owen Mumford. Please allow up to 30 days for your program enrollment to activate.

Program Updates for Those Already Enrolled

For those already enrolled, we are upgrading the program to include even more savings opportunities. The new substitution table (attached) goes into effect August 15th, and features several new items that have been added since you chose to enroll. If you are already enrolled in the Preferred Diabetes Care Program, there is no further action required by your pharmacy.

Should you have any questions or concerns regarding your involvement in this program, please feel free to contact programs@owenmumfordinc.com for more information.

Sincerely,
Cyndi Mincy
President & CEO, PPSC

1. Data on file (July 2017).
2. Please allow up to 30 days for program cancellation to take effect.
