

## PrescribeMedicare

Help find the right Medicare plan

**Medicare plan reviews with a pharmacist make patients four times more likely to stay loyal to a pharmacy after one year.**

Help your Medicare-eligible patients find the best plan for their prescriptions and financial priorities. PrescribeMedicare automatically uploads the patient's current prescriptions and walks you and your patient through a plan review for Medicare Part D and Medicare Advantage plans, comparing quality, out-of-pocket-costs, and other valuable data points. You can easily identify patients that would benefit from a Medicare plan review. Plus, you can automatically contact all Medicare-eligible patients during Open Enrollment and before their 65<sup>th</sup> birthdays about how you can help them select the best plan.

### Compare plans based on:

- Monthly premium
- Annual deductible
- Patient's average drug cost
- Star Ratings
- Plan Ratings
- Insurance networks
- Drug coverage
- Medicaid and Social Security support

### OPPORTUNITY

Save defectors: average community pharmacy loses 30% of Medicare patients

Win-win plans reduce out-of-pocket cost and grow revenue
